1. INTRODUCTION

The Government of Kenya has committed to deliver a series of ambitious social programs to promote long-term economic development for the country through its Big Four Agenda. Delivery of 500,000 Affordable Housing Units is one key agenda. The Government, through the State Department for Housing and Urban Development (SDHUD), has set aside several pieces of land towards achieving the same.

Through the Specially Permitted Procurement Procedure (SPPP), as stipulated under Section 114a of the Public Procurement and Asset Disposal Act 2015 (PPADA), SDHUD as the Contracting Authority (CA) wishes to invite Strategic Partners to undertake development of the Starehe Housing Project. The intention of this process is to identify Strategic Partners who are developers with experience in undertaking development risk by funding, constructing, and selling housing developments. The eligible Strategic Partners must prove their ability to undertake the developments through demonstration of financial and technical capacity. The projects must be undertaken without transfer of risks or investor obligations to the Government. The Government of Kenya, through SDHUD, will provide to the Strategic Partner the land for the project and tax incentives as provided under the Affordable Housing Program (AHP).

Eligible prospective investors with financing are hereby invited to submit their proposals for consideration as Strategic Partners. To undertake this project, several guidelines have been provided to guide interested investors as they prepare responsive proposals. Investors are encouraged to indicate interest in the project provided they have the requisite financial and technical capacity to complete the project including sale of the units. SDHUD will evaluate and carry out due diligence on interested investors including assessment of their financial and technical capacity as provided in this document.

2. PROJECT DEVELOPMENT INFORMATION

2.1. PROJECT DESCRIPTION

2.1.1. The State Department for Housing and Urban Development (SDHUD) is issuing this Request for Proposal (RFP) with respect to prospective affordable housing projects on pieces of land offered up by National Government, County Governments, and the National Housing Corporation (NHC).

2.1.2. The full list of available land for projects is provided in *Section 4.1.1 Land for Proposed Affordable Housing Projects* elsewhere in this document.

2.1.3. Bidders are required to submit with this proposal the completed matrix of projects that they would be interest in through Projects of Interest to Bidder Form provided in *Section 4.1.2: Projects of Interest to Bidder Form* as part of the Technical Submission.

2.2. PROJECT DELIVERY MODEL

- 2.2.1. The Government is committed to collaborating with private sector investors to facilitate delivery of adequate, accessible, and affordable housing to all Kenyans in line with the Big Four Agenda through various delivery models.
- 2.2.2. The anchor aims for the development remain as provision of affordable housing, in line with the Development Framework Guidelines (DFGs), and therefore interested investors must have concrete road maps for development of the site in short order after selection. It is important that the development strategy caters for all categories of affordable housing as defined in the AHP Development Framework Guidelines (DFGs).

2.2.3. Engagement Structure

- 2.2.3.1. The bidding process will be under the Specially Permitted Procurement Procedure (SPPP) that allows for direct negotiations with the successful Strategic Partner following receipt of the responses to this RFP.

- 2.2.3.4. For projects on National Government land:

- 2.2.3.12. Funds that will be collected from pre-sales will be held in an independent project account in safekeeping for the prospective homeowners. In this regard, the Contracting and Strategic Partner will appoint a local reputable financial institution to engage into escrow arrangements for purposes of handling the funds collected from the pre-sales (“Independent Escrow Agent”).
- 2.2.3.13. Developers who wish to access the build-up of deposits will be allowed to access the deposits ONLY towards the development against certificates/milestones signed off by the Project Manager in the form agreed and detailed in the Project and Escrow Agreement.
